

PRODUCT SPOTLIGHT

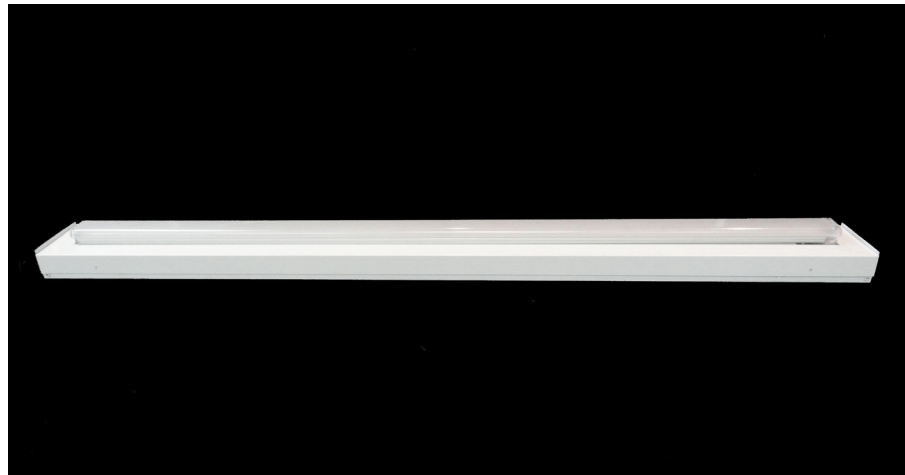

About FSC Lighting

FSC has been a leader in the lighting market for over 40 years. They offer a full line of commercial lighting products including fluorescent and LED fixtures of superior quality and reliability. Most products are manufactured in the USA and qualify for the Buy America Act instituted by the Federal Government.

FSC solutions are application based and can be modified to fit the needs of your project. Together, we can develop unique solutions to reduce product cost and energy usage.

L8500 Series: Why we recommend it

- LED Strip
- Easy, fast, tool-free maintenance
- Daylight harvesting, bi-level/step dimming, occupancy sensors, emergency battery back-up options available
- Energy efficient – up to 90% savings over current energy/ lighting costs
- Available in standard lumen output & high lumen output
- Narrow & medium reflectors optimized for high-bay aisle application

L6000 Series: Why we recommend it

- LED Radial Wrap
- Daylight harvesting, bi-level/ step dimming, occupancy sensors, emergency battery back-up options available
- Easy access mounting plate allows for making sensor adjustments and performing fixture maintenance without tools
- Available with an extended body to house a sensor within the box or externally
