

GREEN CREATIVE LAMPS

Titanium LED Series

Simply install in
your existing fixture
and turn ON the
savings.

GREENCREATIVE

BENEFITS

Energy-efficiency can be gained from the right solution - whether simple or complex. In some situations, simply exchanging outdated lamp technology for new low wattage LED lamps can reduce operational costs and lighting related energy consumption.

WHY WE RECOMMEND

- Plug and Play installation
- Dimmable
- Extra long lifetime - up to 50,000 hours
- Suitable for multiple applications including commercial, hospitality, retail, and multi-family housing
