- Perfect for new or retrofit installations
- Delivers up to 20,000 lumens
- DesignLights Consortium® Premium qualified.
- Nighttime Friendly™ product

Service Life up to 20 yrs

The KAX LED family will not only save you money up front, but will also save you money in maintenance cost down the road.

Benefits of the LED Area Luminaire

- Provides the right amount of light on any small or medium lot, no matter the shape.
- Area products come with integral universal mounting, allowing the luminaire to mount to virtually any existing drill hole pattern on either square or round poles.
- Optional bi-level motion sensor (PIR or PIRH). Fully programmable. Stays dimmed at night during non-occupancy and quickly ramps to full light output when motion is detected.
